

Installation Instructions: Desk Light Standard Table Base LTG-TB-ST-X & USB Table Base LTG-TB-USB-X

Parts Included

No tools are required to connect a Workrite Luminaire to the Table Base

If you have a Standard Table Base, skip to **Step 2**.

USB Table Base:

1 Powering Your USB Table Base

Unplug the power supply included with your compatible Workrite desk light from both the wall outlet and the light.

- a** Connect one side of the Y-Cable to the port on the USB table base.
- b** Connect the other side of the Y-Cable to the port on a compatible Workrite desk light.
- c** Connect the bottom side of the Y-Cable to the port on the transformer.
- d** Plug the power supply included with your desk light back into the wall outlet.

Plug any USB cable with a Type A connector into the USB charging outlet to charge your device.

Standard & USB Table Base:

2 Connect the Luminaire Arm to the Table Base post

The luminaire base will **snap** onto the Post on the Table Base.

Table Bases provide 90° of base rotation.
