

ELEVATE YOUR LAPTOP SCREEN

Designed to accommodate today's popular laptop computers, Workrite's Universal Laptop Holder is VESA compliant and can be mounted to any Workrite Monitor Arm, as well as any VESA compatible monitor arms or stands from other manufacturers. Pair the Laptop Holder with an adjustable monitor arm to allow you to raise and lower it based on your ergonomic needs.

Reinforced steel construction with anti-vibration pads ensure that your laptop is stable and quiet while the vented platform design allows your laptop to stay cool. The Workrite Universal Laptop Holder ships completely assembled. Simply adjust the laptop holder height to match your laptop computer's size, attach to any 75 mm VESA compliant monitor arm with the provided screws, and get to work.

Accommodate laptops up to 15.4".

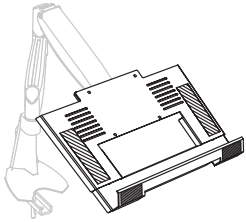

Anti-vibration pads hold laptop securely while vents assist in cooling.
